

Graduate Degrees Abroad:

Almost any school abroad which offers graduate level study will accept "international" students. Students should find appropriate schools abroad that offer the type of research, academic program that they are interested in or are located in an area of interest. Students should talk with faculty members doing similar research to see if they have recommendations or work with the Professional Life Development office for more information on researching graduate schools

SPECIAL OPPORTUNITY FOR **USM GRADUATES** at KEELE UNIVERSITY IN ENGLAND!

All American students will be eligible for a 10% bursary (scholarship) for tuition. In addition, all students graduating from the University of Southern Maine will be eligible for a further 15% bursary, for a total of 25%.

Finally, if a previous exchange student from the USM decides to come back to Keele for graduate study, they will be eligible for a 50% bursary. This means that for 2010/11 tuition would be approx. £4,700 (approx. US\$ 7,800) for a returning exchange student.

In addition, for each year from 2010 onwards American students will be able to compete for the NAFKU scholarship. This will provide £ 3,750 towards living costs at Keele. Final Selection will be by members of the NAFKU Board.

FMI visit the Keele website at:

ARCADIA UNIVERSITY

A master's degree pursued abroad offers you unprecedented advantages in terms of academic quality, cost, and length of time.

- In most cases, you can earn a [taught master's degree](#) in one year through our affiliation with seven highly regarded internationally acclaimed universities in [Australia](#) and the [United Kingdom](#).
- Hundreds of [subject areas](#) are available, many of a highly specialized nature. This ensures that you'll be able to find a program that meets your precise academic and professional interests, whether you want to prepare to enter a selected professional field or continue toward a doctoral degree.
- Because you can complete a taught master's degree in one year, you'll most likely find overseas graduate study to be more economical than domestic study. In most instances, a federal student loan can cover the complete cost of your tuition and housing.
