

INVENTORY SYSTEM

1. Inventory of storage sites will be totaled at the end of each month to assure we never generate in excess in any one month that which is allowed by the regulations.
2. A licensed transporter will be notified when to pick up stored wastes as needed.
3. A monthly inspection of both storage sites will be done to determine amounts and types of wastes being stored.
4. Record of these inventories will be kept up to date as any wastes are added to the site.
5. Inventory records will be kept in the containment area.

MONTHLY STORAGE SITE INVENTORY
