

Leverage Your Knowledge, Skills, and Experience with Prior Learning Assessment at USM

You have experience—maybe even some college—but no college degree. You need to take inventory. Let us help you earn academic credit for your knowledge gained outside the classroom.

It's a fact.

If you have a bachelor's degree you have:

- More Options—college graduates have knowledge and skills employers want and need and the flexibility to apply them in more occupations
- More Income—starting salaries are higher for those with college degrees
- More Security—there are no guarantees, but Maine statistics show lower unemployment rates among those with college degrees

Join us and discover how your experience can pay off!
