

NIGHT SKY MYTHOLOGY

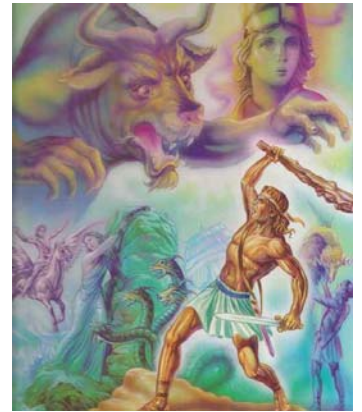

March 12, 19 and 26, 2009

Thursday evenings
6:30 – 8:00 p.m.

Fresh world awakened to the dawning twilight of the coming age. All things from smallest dryad to greatest Olympian enlivened by breathless earnest. It is a world of dark, thunder-echoing mountains and flowing Earth fire; of verdant meadow under boundless skies.

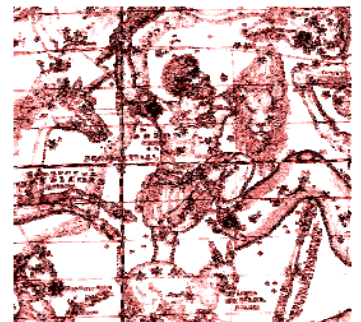

A world not yet faded with age, but one that is both violent with strife and magnificent in scope. It is the fantastic, frightening and perilous world of mythology. The Night Sky Mythology course transports you into this mysterious realm where you will learn the stories of the stars and constellations.

Spend an hour and a half in our star dome theatre each week for three weeks. Discover the locations, tales, and structures of more than fifty constellations. Enrollment: \$50.00 (\$35 for members)

To register, call 207-780-4249 or send an e-mail to:
