

UNIVERSITY OF  
SOUTHERN MAINE

# Student Involvement Awards '05-'06

*Sponsored by the Office of the Dean of Student Life and the Leadership Development Board*

As the end of the year quickly approaches, it is time to think about recognizing the outstanding students, faculty and staff that we have all worked with over the course of this and previous years. The USM experience is a special one, one that crosses many boundaries. Involvement in campus life occurs inside the classroom, in department offices, on the athletic field, in the greater community, on the bus ride between campuses, in the residence halls and beyond. Campus community members from all walks of life choose to get involved and make a difference at USM. These awards are our chance to recognize those that have taken the extra step to get involved in campus life, taken on leadership roles and played a significant part in making USM a better place for their peers and colleagues. Please take a few moments to consider nominating someone that has made an impact on your USM experience for one or more of the following awards.
